A daily health screening is required in order to come onto The Bush School campus and enter school buildings. This requirement is part of the school’s updated health and safety measures in response to the COVID-19 health outbreak. All visitors (vendors, essential visitors, and parents/guardians) are asked to enter campus through the Main Office at 3400 E. Harrison Street (intersection with 36th Ave E).

**VISITORS**
All vendors, essential visitors, and parents/guardians are required to check in at the Main Office and complete a visitor health screening in order to enter school buildings on campus. To get started, scan the QR Code to complete the health screening and then head to the Main Office to take your temperature and sign in.

**FACULTY AND STAFF**
All faculty and staff are required to complete an at-home daily health screening before entering school buildings on campus. If you have arrived on campus and still need to complete the screening, scan this QR code and take your temperature at the Main Office.

**STUDENTS**
All students are required to complete an at-home daily health screening in order to enter buildings on campus. Students should use the Magnus Health App V2 in order to complete and submit their health screening, and then check in at your designated Wellness Screening check-in location or the Main Office.
